

# Goodman Bentley (Spec/Ops) Design Co.

## ALL PURPOSE POLICE AND MILITARY HELMET BRACKETS

Designed by the Winner of BBC Televisions, Tomorrows World "Inventor of the Year" Award 2000

The GB range of Police and Military Dynamic Entry helmet brackets have been produced in high quality steel or aluminium and are the only brackets in the world manufactured to ensure that the integrity of all ballistic and riot helmets are maintained. In use with many Dynamic Entry teams in the UK and abroad.

Supplied in a variety of power coated finishes.

Camouflage /Sand/ White for military use.  
Matt black or blue for Police/Government.

No holes need to be drilled into the Kevlar or Riot helmet thereby maintaining the International Safety Standard .  
Manufactured to the highest specification for durability and load carrying.

Can be used in conjunction with the GS Kevlar helmet whilst using the S 10 Respirator.

Can be worn with the GS Kevlar or Police/Military riot helmets

Will support up to 2lbs in weight  
No drilling required
